PROJECTS & TECHNICAL ACHIEVEMENTS

Portfolio Website | Personal Project | 2025

- Designed and deployed a Windows 11-themed personal portfolio at ceo-senny.vercel.app built with React, Next.js, and deployed on Vercel.

Word Drop — Minimalist Writing Platform | Personal Project | 2025

- Full-stack web application built with React/TypeScript and deployed on Vercel; includes audio hosting via Supabase Storage.
- Designed for distraction-free writing with a clean, minimal interface.

Waqira Perfume Website | Client Project | 2025

- Designed and developed a branded e-commerce/showcase website for Waqira Perfume.
- Handled UI/UX design, responsive layout, and deployment pipeline.

Edu-Core School Management System | Personal / Academic Project | 2025

- Built a full school management system covering student registration, data management, and academic records.
- Integrated MySQL database with a Python Tkinter GUI for a complete desktop application.

ICT Projects — Starehe Boys' Centre | Academic | 2023 – 2024

- Developed a functional calculator application in C#.
- Designed and tested a data entry application using Microsoft Access.
- Presented projects at school ICT exhibitions.

EXPERIENCE & VOLUNTEERING

Digital Volunteer | Kenya National Library Service | 2023 – Present

- Supported digital research and public access to academic resources.
- Promoted computer literacy and basic programming skills among young learners.
- Participated in cataloguing, learning material digitisation, and a technological robotics program using Arduino IDE.

TECHNICAL & PROFESSIONAL SKILLS

Programming & Dev: Python, C#, HTML/CSS, JavaScript/TypeScript, React, Next.js, SQL (MySQL)

Tools & Platforms: Git, Vercel, Supabase, Microsoft Office Suite, Google Workspace, Arduino IDE, MS Access

Soft Skills: Leadership, Project Coordination, Analytical Reasoning, Written & Verbal Communication (English, Kiswahili, basic French)

LEADERSHIP & CO-CURRICULAR ACTIVITIES

- USIU Student Cabinet — aspiring for executive student leadership to drive student welfare and institutional growth.
- USIU IT Club, Mathematics Club, Young Diplomats Club, PECC Club — active participant in competitions and activities.
- Rugby — competitive ambition to represent USIU on the rugby field.
- Math Club — regional and national contest participant (high school and USIU level).
- Chess Club — competitive logical problem-solving.
- Scouts Movement — community clean-ups, tree planting, environmental advocacy.

CAREER OBJECTIVE

To build a career in Software Engineering and entrepreneurship, founding technology products that address real-world challenges in education, sustainability, and youth empowerment across Africa. Targeting postgraduate study (Masters/PhD) and eventual roles at world-class organisations such as Microsoft, Amazon, Oracle, or IBM — while contributing meaningfully to the African tech ecosystem.
